

iPhoneography at OLLI

Fall 2023 Syllabus *

iPhoneography - Award winning iPhone photographer Yoni Mayeri will show you how to capture and edit images with just your iPhone. Learn the best practices for photographing and editing using exclusively the iPhone.

The iPhone and other mobile technology have spurred a remarkable shift in the field of photography: more pictures are being taken with iPhones than all other devices combined. This drastic increase in amateur, semi pro, and professional photography with mobile devices, has resulted in an influx of photo-editing software and new techniques.

iPhoneography: creating images via capture and edit using a mobile device

In each of these six session workshops, please come with your iPhone fully charged and plan to use a computer to watch the Zoom vs your iPhone which you may need to follow along. Additional Handouts will be available to download to registered students from the OLLI class website.

Week One

- Instruction on how to take professional quality photos with your iPhone or mobile device (presentation)
- Best practices for use of and review of the Native Camera App built into your iPhone (live demonstration)
- Q&A

Week Two

- Demonstration of your iPhone's Photos App (live demonstration)
- Review of Camera features and how to shoot a good photograph
- Q&A
-

Week Three

- Best practices for mobile photography (presentation)
- Introduction to the [Snapseed](#) App for editing and enhancing photographs on your iPhone (live demo). Snapseed is a free app by Google.
- Review and Critique of your images, upload site TBD
- Q&A

Week Four

- Introduction to the benefits and features of using a Camera Replacement App (live demo). [Camera+](#) Pro Camera & Editor, is a paid app; optional to download ahead or wait and watch the demo. Developer is LateNiteSoft S.L.
- Accessories to expand your iPhoneography
